DATE March 25, 1925.

New York to Panama

We have for acknowledgment your letter of March 10th under the above heading enclosing sample and asking for quotations on 20,000 letter heads.

Having in mind our long standing relationship with the Bank, and being desirous of serving their needs, we have gone into the matter of cost very diligently, and quote you our very lowest prices as follows:

20,000 - Lithographed Letter Heads
on A.B.N.Co.Bond paper at $10.00 per 1000 ....$200.00

20,000 - Lithographed Letter Heads
on Chieftain Bond paper at $7.50 per 1000 ....$150.00

20,000 - Embossed Letter Heads
on A.B.N.Co.Bond paper at $20.00 per 1000 ....$400.00

20,000 - Embossed Letter Heads
on Chieftain Bond paper at $17.00 per 1000 ...$340.00

In addition to the above there will be a charge on the original order for the preparation of engravings as follows:

For Lithographed Letter Heads --$25.00

For Embossed Letter Heads --$75.00

All of the above prices are U. S. Gold f.o.b.NY.

We trust that you will be successful in securing this order and assure you that it will receive our best attention.

We enclose herewith samples of the above referred to bond papers.

SUBJECT BANCO NACIONAL DE PANAMA - Folders.

C. P. D. MAR 27 1925

DATE March 26, 1925.

Thank you for your letter of March 11th, with the sample folder made for this bank.

After seeing this folder there can be no question as to why the prices they paid were so low. The smallest kind of a printing shop here in New York could turn out a much more creditable article. We do not do this kind of work at any price, and you should make it a point to see some of the officials and impress this on them.

Of course we cannot, nor do we pretend to, tell our customers the kind of folders or other work they should have but the bank officials must realize that such printing as is shown in their folder cannot in any way be compared with anything that we have ever made for them.

Though it may be but our own idea, it does seem to us that the quality of printed matter of any bank or firm, is part of its advertising and helps to make a good or bad impression on those who receive it. Our argument has always been that poor printed matter is false economy indeed.

You yourself know that a good looking - well printed letter head, received by you from an unknown firm, immediately makes a good impression. This is perfectly natural and very often will be the cause of giving more consideration to that firm - in replying, than you would give to a house careless abouts its stationery - who used cheap and poorly printed letter heads.

Try, at all times to impress this point on any and all with whom you come in contact - with prospective business in view.

Yours very truly,

Manager Foreign Department

MAR 31 1925

DATE March 30, 1925.

New York to Panama

We were sorry to hear that this bank had decided to buy its envelopes from another firm. However, envelopes are a staple article and made up in more or less of the same sizes throughout the world.

Naturally, where labor and paper are the cheapest the finished article can be sold at a lower price. Doubtless the bank was able to purchase its envelopes right there in Panamá at a much lower figure than we would be able to quote them, since they probably give a better price to the trade than to us. Our only idea, as you know, was to do the printing.

Yours very truly,

Manager Foreign Department.

FULL RATE MESSAGE UNLESS MARKED OTHERWISE

ALL MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS:

To guard against mistakes or delays the sender of a cable message should order it repeated, that is, cabled back to the originating office for comparison. For this, one-quarter the unrepeated cable message rate is charged in addition. Unless specifically stated on its face to be 'a repeated message,' this is an unrepeated cable message and paid for as such.

THIS COMPANY WILL NOT ASSUME ANY RESPONSIBILITY CONCERNING ANY MESSAGE BEYOND THE TERMINUS OF ITS OWN LINES.

It is agreed between the sender of the message on the reverse hereof and this Company, that this Company shall not be liable for mistakes or delays in the transmission or delivery, nor for non-delivery, to the next connecting telegraph or cable company, or to the addressee, of any unrepeated message, beyond the amount of that portion of the charges which may or shall accrue to this Company out of the amount received from the sender for this Company, and the other companies, by whose lines such message may pass to reach its destination; and that this Company shall not be liable for mistakes or delays in the transmission or delivery, nor for non-delivery, to the next connecting telegraph or cable company, or to the addressee, of any repeated message, beyond fifty times the extra sum received by this Company from the sender for repeating such message over its own lines, and that this company shall not be liable, in any case for delays arising from interruption in the working of its lines or from congestion of traffic, nor for errors in cipher or obscure messages, or caused by indistinct handwriting or typewriting; and that in any event this Company shall not be held liable for any loss or damage, or for delay or detention, or error caused by storms or the action of the elements, or other acts of God, or by civil or military authority, or by insurrections, riots, rebellions, or dangers incident to the time of war, or by the unlawful acts of individuals. And this Company is hereby made the agent of the sender, without liability, to forward any message over the lines of any other Company when necessary to reach its destination.

No responsibility attaches to this Company concerning messages until the same are presented and accepted at one of its transmitting offices; and if a message is sent to such office by one of the Company's messengers, or by a messenger of any other company, he acts as the agent of the sender for the purpose of delivering the message and any notice or instructions regarding it to the Company's agent in its said office. Any message sent to the Company's office by private wire or by telephone or by telegraph or through a connecting telegraph, cable, or radio company, is sent at the sender's risk of errors or failures in such service and all of the terms and conditions herein shall apply to the message throughout, and the person receiving such message by private wire or by telephone or by telegraph or through a connecting telegraph, cable, or radio company acts for that purpose as the agent of the sender, and is authorized to assent to these conditions on behalf of the sender.

It is agreed that this Company shall not be liable for damages or statutory penalties in any case where the claim is not presented to it in writing within sixty days after the message is filed with this Company for transmission.

It is agreed that prompt and correct transmission and delivery of this message shall be presumed in any action for recovery of the tolls therefor, subject, however, to rebuttal by competent evidence.

It is agreed that the exemptions above stated shall apply both to Mexican Telegraph Company and to All America Cables, Incorporated.

The above terms and conditions shall be binding upon the receiver as well as the sender of this cablegram.

No employee of the Company is authorized to vary the foregoing.

> "September 12th refer to your telegram of 11th telegram is mutilated, kindly repeat quantity checks required."

and we received this morning your cable, which we decoded as follows:

> "September 12th refer to your telegram of 12th 12,500 checks required."

We are therefore entering an order for 12,500 customer checks, Panama date line. This is a reduction from the previous order of 35,000 checks. Naturally the larger the quantity the better the rate per thousand checks because the cost of make ready on the presses and the finishing operations is the same whether we print 1,000 or 100,000 and on the larger quantity the preparatory expense is distributed.

Our charge for this order will be .....

We are putting this work in progress right away and endeavor to ship in the neighborhood of three weeks time.

Yours very truly,

SUBJECT BANCO NACIONAL DE PANAMA

DATE October 16, 1925.

New York to Panama

C.P.R. OCT 17 1925

Further referring to your letter of September 12th and as advised in our letter to you of the 29th, we are sending you this day under separate cover by registered mail two models of check in two sizes which we have had prepared by our artist following along the lines of your request.

We are indeed greatly pleased with the general effect produced by these models and we sincerely trust that our efforts in an endeavor to give the bank a check of character and distinction will meet with the favor of its officials. As we have as yet not received the quantity of checks desired, we will refrain from furnishing you with an estimate until we have this information. It might be well to wait now until the bank has seen these models.

You will note that we have taken certain liberties in preparing these models. In the first instance, in order to localize the trade mark of the bank it is necessary to have it appear as a part of the printing. Otherwise, if safety paper were used like the sample of the Chase National Bank which you sent us, this seal would appear anywhere on the check wherever it happened to fall. Special watermarked safety paper can be purchased in the trade and must be ordered from the manufacturer only in large quantities of say about 50 reams. For security against attempted erasures, which is the thing which we presume the bank is striving for by their wanting safety paper, we have a

white safety paper which we offer, which paper with a combination of a sensitive surface tint furnishes unusual protection. This paper is now supplied by us for travellers checks, also all the large distributors such as the Bankers Association, the American Express Company, the National City Bank etc., it is also used on many checks and letters of credit.

We are enclosing herewith two specimens of this paper with the protective tint which we thought you might like to submit to the bank with these models. While this safety paper to which you refer is quite universally used because it is sold in the trade, yet it does not afford such protection against alterations as the check made up by us as proposed. The important thing about a check like our model is that it has individuality to a marked degree which cannot be obtained in combination with an all over safety paper.

We are confident that you will be successful in influencing an order for these checks and we shall hope to have good news from you shortly.

Yours very truly,

DUPLICATE SENT

Manager Foreign Department

SHL/SD

P.S. In the tint for this check we would use the special microscopic pantograph pattern in which is worked the name of the bank which will give them further protection and improve the appearance.

We have deferred furnishing you with an estimate on checks for this bank, as per your telegram of October 17th which we decoded as follows:

"October 17th refer to your letter of 29th September will require 111,000 checks a size larger 75,000 checks a size smaller total 186,000."

and your letter of October 18th, acknowledgment of which we hereby make in anticipation that we might hear further from you. We were anxious to get the Bank's reaction for our models, as we explained in our previous letter, differed quite materially from their specifications.

However as you might possibly be able to use the information about prices in conjunction with the models, we herewith quote you as follows:

For 111,000 customers checks, large size, prepared as per model submitted, we would quote
for the checks $700.00
for the binding additional 140.00
Or a total of ------ $840.00

For 75,000 small checks, as per model submitted
we would quote for the checks.....$530.00
for the binding additional 180.00
Or a total of ------ $710.00

which would make a grand total for the entire order of .....$1550.00.

We have every hope and expectation that the models as submitted will both be found satisfactory to the bank and anticipate that we may soon receive through you an order for these supplies. If there is any change in the form of the check or specifications please so advise us that we may furnish you with further information.

It is this character of stationery which we would like to prepare

for the bank and with this in view we have endeavored to furnish them with a price which will merit their order.

We have credited your account with $2.70 as per receipt enclosed in your letter.

We await further news from you.

Yours very truly,

We have your letter of November 23rd in which you request that we prepare for the above 25,000 additional checks in books of 25 each, with Panama date line.

In your letter you mention letter of October 18th, 1925. Referring to our files we note that this letter was in connection with the new form of check. We therefore have taken your letter of September 12th as the one for reference in which you ordered for this bank 12,500 checks. If we are wrong please advise us immediately by cable on receipt of this letter, otherwise, we are proceeding as above stated.

Our charge for this quantity will be $195.00 U.S.Gold f.o.b. New York.

We are planning to ship by the end of this month or the early part of next.

The two models of the checks to which reference was made in your letter of November 23rd have been altered as requested, and are being returned to you under separate cover registered.

From our stand point we regret to note the renewed inquiry for estimates on checks printed on safety paper. While we are compelled to supply forms on this safety paper when requested by our customers, yet we are reluctant to do so for two reasons.

First - As you will agree with us, by comparing our model with any check printed on safety paper, that such a check loses its identity and individuality. This safety paper has a general stock pattern which is the same on all checks wherever it is used. The safety paper likewise has less protection than our own special tint, as shown on our model, printed in a protective ink over our white security paper. If you will experiment with the safety paper you will find that this tint washes off and leaves the white paper uninjured, while with our security paper the stock itself is decolored and cannot be removed.

Second - The safety paper people are competitors of ours in that they sell this paper in the general trade to anyone who wishes to buy it, and therefore often customers use it with plain ordinary printing instead of coming to us having us print a protective tint on our white security paper for them. Therefore, we at all times recommend our own security paper like the two samples which we sent you with our letter of October 16th, on which a sensitive protective tint is printed.

Our charge for the 111,000 large checks and 75,000 small checks prepared in the three different ways would show the following:

On our special white safety paper with a protective tint as per our letter of October 16th:

111,000 checks bound	$840.00
75,000 checks bound	710.00
Total	$1550.00

On safety paper like sample #1 submitted but without a special watermark:

111,000 checks bound	$1105.00
75,000 checks bound	945.00
Total	$2050.00

If a special watermarked paper, add to this price $200,00, or a total of ---------- $2250.00

From the above you will note that the bank is getting a finer product at a lower cost by the use of our own protective tint in conjunction with our own white security paper.

We are enclosing herewith three specimens of safety stock, as requested. The light weight paper, as per your sample #2, does not come in a deep blue like your sample #3, but only in a light blue like the sample herewith marked #1. Specimens #2 and #3, as you will note, are of a heavier stock but of a deeper tint. Checks carrying our own tint, as per our model, can be printed in a blue of a nearer match to the sample #3 sent by you. Of course this sample shows the color as a part of the stock while a tint printing would only be an attempt at producing a similar effect. We presume the bank has mentioned this color in a general rather than a specific way.

SUBJECT BANCO NACIONAL

C.F.R. APR -3 1926

DATE April 2, 1926.

We have had a working model made for the small checks referred to in your letter of March 14th. We enclose herewith a photograph of this model which will show you the arrangement of the check as laid out.

You will notice that for the check proper the artist has followed the arrangement of the large check which you sent us as your model, by leaving a narrow margin at the left end of the check that the name of the customer might be printed therein.

For the stub of the small check you will notice that we have used the stub as heretofore, feeling that for the one on pocket check you would prefer a short stub rather than a long stub like the one you sent us for your model of the large check. We are, however, anxious to meet the requirements of the bank, and prefer raising these two points at this time to be sure that we clearly understand what is required.

Therefore on receipt of this letter will you please cable us the code word"approved""ABWAJ" if the check and stub, as shown in this photograph, are satisfactory. If the check is to be changed by doing away with the blank space on the end and therefore moving over the reading matter and the seal to the end of the check the word "ABNOBAIMYC" meaning"alter check"will indicate to us what is desired. If the stub for this small check is to be the same as the stub for the large check the code word "ADKIZECGAK" meaning "change stub" will indicate what we are to do with this portion of the check.

If the arrangement of the stub is to be the same as the large check, we would not, however, recommend increasing the length over the stub as shown

on this photograph. If you do it will make your book very long and we should presume inconvenient for handling.

We are going ahead with the alteration of the large check in accordance with the model which you sent us.

Please let us hear from you immediately upon receipt of this letter. We will advise you later about price and time of delivery.

Yours very truly,

AMERICAN BANK NOTE COMPANY 70 BROAD ST.

RECEIVED

AMERICAN BANK NOTE COMPANY.

C.I.R. APR 16 1926

SUBJECT BANCO NACIONAL DE PANAMA

DATE April 15, 1926.

New York to Panama

We have your cable of April 12th, which we decoded as follows:

"April 12th refer to your letter of 2nd approved reduce width 3/16 inch."

We are pleased to note that the rearrangement of the check, together with the short stub, has been approved.

The photograph of the model which we sent you was not intended to show the exact size of the check, which photograph, as we infer from your cable, was 3/16 of an inch wider than these pocket checks which we have heretofore made for the bank, and this order is being prepared having the width of the check the same as usual. We trust we are correct in our interpretation of your cable and that the check 3 inches in width is in accordance with the bank's requirements.

In order to manufacture these checks in an economical way for the bank, we have laid out for our printing the small checks and also the large checks in what we term a combination run, having on the one printing sheet a certain number of checks with Panama date line, and a certain number of checks without Panama date line. The 75,000 small checks in this combination run form works out very advantageously, enabling us to print the 50,000 and the 25,000 respectively.

For the 75,000 small checks, including the 3,000 books, our charge is.....$645.00.

In laying out the combination for the large checks, the quantity specified by the bank does not, however, work out to advantage, and we are therefore taking the liberty of changing the quantities somewhat, because by doing so, running the checks as we are going to, will give the bank a greater number of checks, or 122,400, at a lower price than they would otherwise have to pay for the number of checks ordered 111,000, if they were run in separate lots, that is the checks with the Panama date line and the checks without the Panama date line.

The order on the increased quantity would be proportioned as follows:

30,600 Panama date line
91,800 Blank date line

We will bind these as requested:

30,600 Panama date line in books
20,400 Blank date line in books

delivering the balance of 71,400 without Panama date line loose in sheets 3 deep.

The increase in the size of the stub also necessitates the use of a larger sheet of paper to print on and we therefore increased the cost of this order somewhat.

For the 122,400 checks, including the binding as specified, our charge will be.....$1080.00,

or a total of $1725.00 for both lots, U.S.Gold f.o.b.New York.

Work is progressing on this order as fast as possible, and we will hasten shipment as much as we can.

C.P.R. AUG 22 1927

DATE August 18,1927.

We have your inquiry of the 6th, concerning a further order for checks for the above.

We note that the bank is considering having the tax stamp printed on their checks, in the place where the seal of the bank now appears.

Of course it would be impossible for us to print this stamp as a part of the check without proper official authorization from the Government department.

We could alter the engravings of the check without trouble, but the stamp we would propose printing by lithography - the same as the rest of the check, in the green color of their present form.

You do not mention the quantity , but presume the bank would be ordering about the same number of checks as on their last order. If so, the price would be about the same as that order.

We await your further advices and remain,

Yours very truly,

Dear Sirs:

We are in receipt of your letter of October 7th No. 9733 placing with us your order for 10,000 drafts, O. & D., in accordance with specimen attached, which we note carries a blank date line.

In printing this order we will endeavor to carry a lighter shade of the red, although in the printing of microscopic tints where but a film of ink is used it is almost impossible to maintain a uniform shade, some colors being more difficult than others. This applies especially to your red.

Our charge for this work will be $250.00 U.S.Gold f.o.b. New York.

Thanking you for your order which will receive our most careful attention, we remain

American Bank Note Co.,
New York.

Dear Sirs,

As a matter of considerable interest to ourselves and our Bank, we beg to advise that recently the representative of a well known British paper and office supply passed through, and in going through the Panama Government offices he noticed one of our blank cheques. He examined and told the official with whom he was talking at the time that the paper it was made of was not safety paper and the cheques written on such blanks were not safe, and to prove his assertion he had the official in question write the cheque and then he applied some kind of acid, which neatly erased the writing and left the blank cheque intact to such an extent that it was shown to us and we were puzzled to note that the previous writing and the application of the acid had not left any trace on the blank.

Will you please look into the matter and let us know whether the paper used by your Company in the preparation of our blank cheques is really safety paper or not.

Yours faithfully,

BANCO NACIONAL,

J. Méndez
Manager.

P/S For your information, enclose specimens of blank cheques formerly supplied to us by a British firm, which would not admit of any erasures or alterations being made without a distinct trace being left behind.

BANCO NACIONAL, Panama

We have been supplying this bank for a number of years with checks lithographed, one color, on A.B.N.Co. bond 20 lb. paper. In furnishing this check we have made no pretense to give any security against erasure.

The bank has written to us saying that a British concern has endeavored to interest itself in securing the bank's business and has presented a check which was made for the bank some years ago on which they claim no alteration or erasure can be made without a distinct trace being left behind. The bank sent us two of these checks. I am enclosing one for your experiment.

We would appreciate your opinion of this paper and printing from a security standpoint and a demonstration of the ability to effect erasure or alteration without showing a distinct trace. We would further appreciate your views as to the protective value of this paper and tint in comparison with ours.

If the bank should want protection could we offer our safety paper and a sensitive non-soluble tint which would be a match in color to our 302 Green, which color has been used on checks for this bank. We have made two sizes of checks, last order F-8544.

With reference to Mr. Lane's letter of the 4th instant, we have examined the competitor's check submitted therein, and find that the only protection against chemical alteration is the sensitive ink tint.

We have made a partial erasure of the two words "American" and "Bank", leaving very little indication of our efforts.

A check printed with the same offset ink as used on our last order and upon Crane's ABNCO Safety Paper would give them a very secure check and decidedly better than the one submitted by the British concern.

Dear Sirs:

Your reference No. 2663

We are very much interested in your letter of March 23rd in which you state that a representative of a well known British paper and office supply house demonstrated that writing on the checks prepared by us could be easily erased.

We do not claim that these checks which we have been furnishing you have any special protection against alterations. The special feature of your check is the quality of workmanship. We can furnish you, and will be very glad to on subsequent orders, with a white safety paper which does afford protection against alteration by chemical processes. We enclose herewith a specimen of a check printed on this paper stock.

We are returning to you one of the checks which you sent us. The only protection in this check is the tint color printing. It might give an amateur some difficulty in making a change. Our chemist however has, as you will note on the check which we are returning to you, had no difficulty in making an erasure by use of

chemicals without in any way affecting the underlying tint. We have no hesitation in assuring you that your checks printed on special white safety paper, like our sample above referred to, affords you far greater security than the sample check which you sent us.

Awaiting your further instructions, we remain

Yours very truly,

SUBJECT BANCO NACIONAL DE PANAMA

C.P. 13. APR 17 1928

DATE April 16, 1928.

New York to Panama

We enclose herewith copy of a letter addressed to the Bank in reference to the protective features of the check which we have been furnishing to the Bank.

If the Bank desires security of this character, we hope they will accept our white safety stock. You will recall that last year we had some correspondence in reference to safety paper, but at that time the Manager decided to continue with the checks similar to those used before.

We would suggest that you use your efforts in getting the Bank to substitute the safety paper for the stock now furnished. We enclose a specimen of our check which we sent to the Bank.

SENDER'S Name and Address

FULL RATE MESSAGE UNLESS MARKED OTHERWISE

ALL MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS:

To guard against mistakes or delays the sender of a cable message should order it repeated, that is, cabled back to the originating office for comparison. For this, one-half the regular cable message rate is charged in addition. Unless specifically stated on its face to be 'a repeated message,' this is an unrepeated cable message and paid for as such.

THIS COMPANY WILL NOT ASSUME ANY RESPONSIBILITY CONCERNING ANY MESSAGE BEYOND THE TERMINUS OF ITS OWN LINES.

It is agreed between the sender of the message on the reverse hereof and this Company, that this Company shall not be liable for mistakes or delays in the transmission or delivery, nor for non-delivery, to the next connecting telegraph or cable company, or to the addressee, of any unrepeated message, beyond the amount of that portion of the charges which may or shall accrue to this Company out of the amount received from the sender for this Company, and the other companies, by whose lines such message may pass to reach its destination; and that this Company shall not be liable for mistakes or delays in the transmission or delivery, nor for non-delivery, to the next connecting telegraph or cable company, or to the addressee, of any repeated message, beyond fifty times the extra sum received by this Company from the sender for repeating such message over its own lines, and that this company shall not be liable, in any case for delays arising from interruption in the working of its lines or from congestion of traffic, nor for errors in cipher or obscure messages, or caused by indistinct handwriting or typewriting; and that in any event this Company shall not be held liable for any loss or damage, or for delay or detention, or error caused by storms or the action of the elements, or other acts of God, or by civil or military authority, or by insurrections, riots, rebellions, or dangers incident to the time of war, or by the unlawful acts of individuals. And this Company is hereby made the agent of the sender, without liability, to forward any message over the lines of any other Company when necessary to reach its destination.

No responsibility attaches to this Company concerning messages until the same are presented and accepted at one of its transmitting offices; and if a message is sent to such office by one of the Company's messengers, or by a messenger of any other company, he acts as the agent of the sender for the purpose of delivering the message and any notice or instructions regarding it to the Company's agent in its said office. Any message sent to the Company's office by private wire or by telephone or by telegraph or through a connecting telegraph, cable, or radio company, is sent at the sender's risk of errors or failures in such service and all of the terms and conditions herein shall apply to the message throughout, and the person receiving such message by private wire or by telephone or by telegraph or through a connecting telegraph, cable, or radio company acts for that purpose as the agent of the sender, and is authorized to assent to these conditions on behalf of the sender.

It is agreed that this Company shall not be liable for damages or statutory penalties in any case where the claim is not presented to it in writing within sixty days after the message is filed with this Company for transmission.

It is agreed that prompt and correct transmission and delivery of this message shall be presumed in any action for recovery of the tolls therefor, subject, however, to rebuttal by competent evidence.

The above terms and conditions shall be binding upon the receiver as well as the sender of this cablegram.

No employee of the Company is authorized t[illegible] vary the foregoing.

C.P.R. OCT -4 1928

DATE Sept .22.1928

Having noticed that in ordering by cable the 75,000 checks for the Banco Nacional it was omitted to state that the date line should be in blank. I cabled you:

"18th.Septemebr refer to our telegram of the 17th. checks date line to be in blank."

On the same day I received yours:

"18th.September refer to your telegram of 17th.Banco Nacional de Panamá are all checks to have blank date line."

The above mentioned telegrams crossed one another; therefore I did not reply.

Kindly credit my account with $1.50, cost of my message as per enclosed receipt.

The 75000 checks are to be in 25000 sheets of three checks each, blank date line, light green and long as per enclosed sample.

C.P.R. DEC 14 1928

DATE December 13, 1928.

We are in receipt of your letter of December 2nd with an original draft showing the contemplated changes in its arrangement, namely - the removal of the cycloid work around the coat-of-arms and the raising of this engraving, thereby permitting the moving of the two lines of text farther to the left and also extending the two blank lines.

To satisfactorily rearrange the two lines of text in the additional space, we would propose re-engraving this work opening up the wording. The moving of the coat-of-arms also throws the underlying wording "Original" and "Duplicado" off center, and we would therefore suggest that with the changes in the face we also make the correction in the tint.

All of this work on original and duplicate checks represents an approximate cost of $30.00 to us, which we will be glad to make as our charge to the bank. We presume that when making this change an order for an additional supply of drafts will be given, which we note from the last order filled was for 10,000 sets.

We will retain the marked draft which you sent us, awaiting further instructions.

SUBJECT BANCO NACIONAL

C. P. JAN -5 1929

DATE January 4, 1929.

New York to Panama

We have made a careful study of your inquiry for a new form of check, small size, as contained in your letter of December 17th.

An all over tint for the border around the edge of the check, as suggested, necessitates the retracing of the text. This we could show on the model and submit to the bank for approval if desired. Possibly the bank would prefer to leave the spacing of the text as now shown and enlarge the size of the check sufficiently to put the border around it. Our estimate, however, is made up on the dimensions of the present small size check.

To handle this check satisfactorily with an all over tint we should have a two color printing; the text and vignette in one color, oil ink, either in black or green; the tint should be in a sensitive ink which in this case would be in green. We would prefer to print the check with the two printings, but we have also made figures on a one color printing like the present check but with an all over tint. The entire check would be printed in an oil ink. The effect would not be as pleasing nor would there be as great security as in the two color proposition. In both cases we would propose using our special white safety stock, the same as we have been using on the recent order for large checks.

The quantity of an order materially influences the price and for your information we are quoting on a 50,000 and 100,000 lot. From these prices you will note it would be to the advantage of your customer to order the larger quantity. In doing so you may, if desired, split up the 100,000 order with a part Colon date line, and a part either Panama or blank.

We would quote the following prices:

Lithographed check, small size 6 1/2 x 2 7/8, printed in 2 colors, face, text and form the same as previously furnished, all over tint to carry a border around the edge of the check with special pantograph the same as used on the present check -

50,000 .....$515.00
100,000 .....$895.00

Checks printed in one color, other specifications same as two color.-

50,000 .....$470.00
100,000 .....$830.00

U.S.Gold f.o.b.New York

We shall be glad to execute the order for the bank for either of the above propositions recommending, however, for general appearance and security the two color form.

We shall await with interest your further advice.

Customers Check - Large Size:

We have made a careful study of the requirements of the Bank, as contained in your letter of January 20th. We note the Bank would like to have the pantograph tint extended down to the lower margin of the check so as to cover the signature space, as indicated on the sample submitted, In all other respects this check in size, form, paper, finishing etc. will be the same as previously furnished.

We will be glad to quote on this basis for -

75,000 checks.....$480.00

125,000 " $770.00

If desired, this order can be divided for Panama and blank date lines in portions of 1/4's, 1/2's or 1/3's. We prefer this proportion on account of our method of printing.

Customers Check - Small Size:

For this size check we note the Bank would like to have the tint extended down to the lower portion of the check to cover the signature line etc., similar to the arrangement of the large size check and as indicated on the sample submitted.

We note further that the record stub is to be discontinued and only a binding stub used and that an insert for records of checks drawn placed between every third check, arrangement as per copy furnished. The books to be bound in units of 24 checks each, single; the paper for the check - our special A.B.N.Co. Safety same as furnished on the previous order of large checks; the

paper for the inserts a good quality bond, but not so expensive.

Handling the order in this way with the interleaved stubs means an additional printing operation, as well as the inserting of the record stub between every third check. We have endeavored, however, to keep this cost as low as possible and are pleased to be able to quote you on

Bonds $1000 and $500 denominations. Callable as a whole at 101 on any interest date after February 1st, 1939. Interest August 1 and February 1. Principal and Interest are payable in Canadian or United States gold coin of the standard of weight and fineness existing on February 1, 1929, and are payable in time of war as well as in time of peace, whether the holder be a citizen of a friendly or hostile state. Principal and Interest payable at any branch of the Royal Bank of Canada in Canada or at the Agency of the Royal Bank in New York, or at the principal office of the Banco Nacional in the City of Panama, without deduction for any taxes, duties or levies of any nature now or at any time hereafter imposed by the Republic of Panama or by any province or municipality thereof. Bonds may be registered as to principal at the office of the Montreal Trust Company in Vancouver, Canada.

Republic of Panama

The population of the Republic is estimated at 500,000, exclusive of over 37,000 Americans living in the Canal Zone and in the Cities of Panama and Colon. The area is 32,380 square miles.

The Atlantic Coast line is 477 miles in length and the Pacific, 767 miles. As the Canal is the gateway between the Pacific and Atlantic, the shipping brings to the Cities of Panama and Colon an enormous trade. These Cities are also visited yearly by tens of thousands of tourists. The pay roll in connection with the operation of the Canal and the American Army amounts to approximately $25,000,000 per year. Panama has great natural resources. It chief agricultural products are bananas, cocoanuts, sugar, cocoa, coffee and tobacco. There are valuable mineral and potential oil deposits which are at the present time largely undeveloped. A system of roads is now being constructed which, together with railway extensions under way will make available the great natural wealth of the Republic.

The Cities of Panama and Colon as well as the Cities of Balboa, Cristobal and Ancon in the Canal Zone, are all provided with paved streets, electric light and power, street cars, water and sewers. Excellent up-to-date hospital facilities have also been provided.

Relations with the United States

Under the terms of the treaty ratified between Panama and the United States on February 26, 1904, in connection with the construction of the Panama Canal, the United States guarantees and will maintain the independence of the Republic of Panama. The Republic of Panama grants to the United States in perpetuity the use, occupation and control of a zone of land—for the construction, maintenance, operation, sanitation and protection of said Canal for the width of 10 miles, together with other concessions in the Cities of Panama and Colon and in adjacent waters and islands. As compensation for the rights granted, the United States Government paid to the Republic of Panama the sum of $10,000,000 of which $6,000,000 is now invested in real estate mortgages in New York City, and is known as the Constitutional Fund; and further the United States Government under the provisions of the treaty makes the Republic of Panama an annual payment of $250,000.

Security

The proceeds of these bonds will be used for investment in real estate mortgages. They are a direct obligation of the Banco Nacional de Panama and are guaranteed by the Republic of Panama. In addition they are secured by Real Estate Mortgages given for loans made by the Bank in an aggregate principal amount not less than 110% of the amount of bonds. Banco Nacional de Panama was organized in 1904 under the laws of the Republic of Panama and its entire issued Capital is owned by the Republic. On December 31st, 1927, the paid up capital of the Bank was $837,446.70, and Reserve Fund $939,563.99.

Sinking Fund

Beginning February 1st, 1930, a Sinking Fund of $50,000.00 per year (or more at the option of the Bank) will be paid to the Trustee to be used for buying bonds at the market or calling bonds at the call price.

We would be interested to learn how the small size customers checks, which the bank ordered on March 12th, are working out and if they were found entirely satisfactory to the Bank.

We would also appreciate hearing further from you about the large size customers checks on which we gave you a quotation in our letter dated February 14th.

We hope the Bank has not ordered these supplies from some one else. If not possibly you can book this order at this time.
